CLINICAL ASPECTS OF LIFE-THREATENING ARRHYTHMIAS *

Editors and Conference Organizers

H. M. Greenberg, H. E. Kulbertus, A. J. Moss, and P. J. Schwartz

CONTENTS

Introductory Remarks. By H. M. GREENBERG, H. E. KULBERTUS, A. J. MOSS, AND P. J. SCHWARTZ	ix
Workshop Participants	xii
Selectivity of Antiarrhythmic Drugs and Ionic Channels: A Historical Overview. By E. CARMELIET	1

Part I. Electrophysiology

Utility of Electrophysiologic Studies in the Management of Tachycardia, Sudden Death, and Syncope. By G. H. BRADY, D. L. PACKER, L. D. GERMAN, AND J. J. GALLAGHER	16
Prehospital Cardiac Arrest Survivors: Classification of Risk Groups on the Basis of Electrophysiologic Testing. By R. J. MYERBURG, L. ZAMAN, R. M. LUCERI, K. M. KESSLER, C. HAMBURG, D. KAYDEN, AND A. CASTELLANOS ..	40
Selection of Optimal Drug Treatment of Ventricular Tachycardia by Programmed Electrical Stimulation of the Heart. By G. BREITHARDT, M. BORGGREFE, AND L. SEIPEL	49
New Approaches in the Electrophysiological Determination of Optimal Treatment of Recurrent Tachyarrhythmias. By G. FONTAINE, N. SHANTHA, R. FRANK, J. L. TONET, A. CANSSELL, AND Y. GROSOGGEAT	67
The Clinical Relevance of Afterdepolarizations. By M. R. ROSEN, J. P. MOAK, AND B. DAMIANO	84

Part II. Pharmacology

Proarrhythmic Effects of Antiarrhythmic Drugs. By R. E. GOLDSTEIN, P. A. TIBBITS, AND W. J. OETGEN	94
Beta-Blocker Effectiveness Post Infarction: An Antiarrhythmic or Antiischemic Effect. By A. HJALMARSON	101
Clinical Pharmacology of Amiodarone. By F. I. MARCUS	112
Molecular and Biochemical Mechanisms Underlying the Role of Calcium Ions in Malignant Ventricular Arrhythmias. By L. H. OPIE AND F. T. THANDROYEN	127
Drug Interactions in Antiarrhythmic Therapy. By J. T. BIGGER, JR. AND E. G. V. GIARDINA	140
General Discussion	163

* This volume is the result of a conference entitled Clinical Aspects of Life-Threatening Arrhythmias, held on June 17-18, 1983 in Florence, Italy, by The New York Academy of Sciences and Centro di Fisiologia Clinica e Ipertensione, Ospedale Maggiore, Università di Milano.

Part III. Mechanisms Relevant to Clinical Management

Myocardial Perfusion and Neurally Induced Cardiac Arrhythmias. <i>By R. L. VERRIER AND B. LOWN</i>	171
Mechanisms Responsible for Arrhythmias Associated with Reperfusion of Ischemic Myocardium. <i>By F. X. WITKOWSKI AND P. B. CORR</i>	187
The Rationale and the Role of Left Stellectomy for the Prevention of Malignant Arrhythmias. <i>By P. J. SCHWARTZ</i>	199
Vasospasm and Ventricular Arrhythmias. <i>By J. A. SALERNO, M. PREVITALI, M. CHIMIENTI, C. KLERSY, AND P. BOBBA</i>	222
Torsade de Pointes: Definitions, Causative Factors, and Therapy: Experience with Sixteen Patients. <i>By S. STERN, A. KEREN, AND D. TZIVONI</i>	234
Bradycardia at Onset of Sudden Death: Potential Mechanisms. <i>By H. M. GREENBERG</i>	241

Part IV. Clinical Aspects of Patient Management

Ventricular Arrhythmias and Sudden Death in Athletes. <i>By F. FURLANELLO, R. BETTINI, F. COZZI, A. DEL FAVERO, M. DISERTORI, G. VERGARA, G. B. DURANTE, M. GUARNERIO, G. INAMA, AND G. THIENE</i>	253
Update of Postinfarction-Risk Stratification: Physiologic Variables. <i>By A. J. MOSS</i>	280
Pacing Methods for the Treatment of Recurrent Paroxysmal Ventricular Tachycardia. <i>By M. BERTHOLET, J. CL. DEMOULIN, A. WALEFFE, AND H. KULBERTUS</i>	286
Clinical Experience with the Implantable Cardioverter-Defibrillator. <i>By M. MIROWSKI, P. R. REID, M. M. MOWER, L. WATKINS, JR., E. V. PLATIA, L. S. C. GRIFFITH, AND J. M. JUANTEGUY</i>	297
Treatment of Patients with Life-Threatening Cardiac Arrhythmias. <i>By D. P. ZIPES, J. J. HEGER, AND E. N. PRYSTOWSKY</i>	307
General Discussion	319
Index of Contributors	325
